

KUSHAVARTA AGLAVE

Data Analyst

+91 7378790521 | Pune, Maharashtra | kushavartaaglave@gmail.com | LinkedIn

PROFILE

Data Analyst with strong expertise in SQL, Python, and Power BI, experienced in transforming raw data into meaningful insights that support strategic decision-making. Skilled in data cleaning, visualization, and modeling with exposure to AWS-based environments, ETL pipelines, and data warehousing concepts.

TECHNICAL SKILLS

- **SQL:** Complex queries, joins, CTEs, performance optimization
- **Python:** Pandas, NumPy, Matplotlib, Seaborn (data analysis & visualization)
- **Power BI:** Dashboards, DAX, Power Query, KPI metrics, interactive visuals
- **ETL & Data Warehousing:** Data modeling, transformation, and pipeline design
- **Excel:** Advanced formulas, pivot tables, data cleaning
- **Soft Skills:** Communication, Problem Solving, Team Collaboration

EXPERIENCE

Data Analyst Intern – Inditronics Pvt. Ltd., Pune (Jun 2025 – Oct 2025)

Assisted in preparing reports and summarizing data insights for business teams. Created Excel-based performance summaries and visual dashboards for management. Supported internal documentation and ensured data accuracy.

Data Analyst Trainee – Radiant Pvt Ltd, Pune (Apr 2024 – Jan 2025)

Collected, cleaned, and analyzed large datasets for data accuracy and reliability. Built Power BI dashboards to visualize KPIs and business performance metrics. Wrote SQL queries to extract and transform data for business insights. Collaborated with cross-functional teams to improve reporting workflows.

PROJECTS

- **Book Recommender System:** Collected & analyzed large scale book data and developed Python-based book recommender system using cosine similarity to suggest books from a dataset.
- **E-commerce Sales Dashboard:** Created Power BI dashboard, analyzing KPIs (revenue, profit, and sales trends) to optimize performance.
- **Employee Attrition Dashboard:** Created Power BI dashboard, analyzed total attritions, attrition by gender, by marital status, by age, by department etc.

EDUCATION

Master of Computer Applications (MCA) – 72.81% | 2023–2025

Bachelor of Computer Science (BCS) – 70.71% | 2020–2023

CERTIFICATIONS

Data Analyst, SQL & Python, Data Science & Machine Learning, Python for Data Analysis, Power BI for Visualization, Soft Skills Development.
